

### **ISSF Conservation Measure 1.3 IOTC Yellowfin Tuna Rebuilding**

As a founder member of the International Seafood Sustainability Foundation (ISSF), Princes has committed to reduce annual sourcing of Indian Ocean yellowfin by 11% calculated with respect to our average annual level of Indian Ocean yellowfin purchases from 2017-2019.

We are pleased to report that Princes reduced its sourcing of Indian Ocean yellowfin in 2021 by 35% compared to its average annual sourcing between 2017-2019.

Please note, in October 2020, ahead of ISSF requirements, Princes announced its aim to reduce Indian Ocean yellowfin sourcing by 50% based on its 2017 purchases by 2022. In 2021, Princes achieved a 51% reduction compared to its 2017 baseline.
